It's reasonable. All these diseases depend on tainted blood. Consumption is simply Lung-scrofula. And for every form of scrofula and blood-taint, the "Discovery" is a certain remedy. It's so certain, that its makers guarantee it to benefunded. With a medicine that is certain, this can be done.

There's a cure for Catarrh, too, no matter what you've been led to believe. If there isn't, in your case, you'll get \$500 cash. It's a bona fide offer that's made by the proprietors of Dr. Sage's Catarrh Ramedy.

tion, dyspepsis, gas, bloating, biliousness, constipation, bad taste, malaria, headache, dizziness, dull head, norvousness, and, particularly during spring, weak, languid and tired teehing. If not cured, this condition leads to fatal liver and kidney diseases. All persons need a medicine

to stimulate and regulate the liver and strengthen their nerve force in the spring.

The grip also had a peculiarly weakening effect upon the nerves and liver, and thousands who had this disease have never recovered their former health. The best remedf and most certain cure for liver

complaints and weak nerves is Dr. Greene's Ner-

"I was taken sick with liver disease and ulcera-

tion of the towels; my heart was also affected. I was flually conduct to my bed three months. A was finally condined to my bed three mentus. A mh5-2w consultation of physicians was held, and I was pronounced incurable. After that I stopped taking their remedies and began the use of Dr. Confidence of the condinent of the c Greene's Nervura. Previous to this I could not sleep, my nerves were excitable and spasmodic, my stomach would not bear food, vomiting almost constantly. Soon after beginning Dr. Greene's Kervura I sleept better, and my stomach would bear light food. I continued to gain until I could get out. I now work the greater portion of the time and feel that Dr. Greene's Nervura saved my life. JAMES MEEHAN.

EDUCATIONAL. IN WASHINGTON.

A BOARDING AND DAY SCHOOL POR YOUNG

The nerves which control our liver often become weak-oned, irritated, discased, especially in the spring. The function of the liver is distribed, and torpid liver or disordered action results. Hence the bile, which is waste and poisonous material designed to be expelled, is not properly secreted and eliminated from the body. Thus retained it causes indigestion, dyspepsia, gas, bloating, billousness, cousting.
